Happy Republic Day

Happy New Year

A very Happy New year to you all.

May you all be blessed with great health. This year has been full of hardships for everyone, emotionally as well as economically. Many lost their loved ones, but we should remember that life is all about moving on. We shall have both good times and bad times as our co passengers. We should learn how to deal with them with zeal.

In this pandemic ,what is most necessary is just to stay positive and keep spreading love.

Just stay optimistic as nothing is permanent. Keep distance from pessimists as they will just lower your morale.

In the end I would like to pray to the almighty that this new year brings energy, peace, solace and happiness in your life. May you all be blessed with the courage to fight all the problems that may come in future.

“Some of the brightest minds in the country can be found on the last benches of the classroom.”

- Dr. APJ Abdul Kalam

On behalf of the School Management, I would like to wish all our parents, guardians, staff and dear students a very happy new year. Though, the last year was different for obvious reasons, Covid-19 forced us to slow the growth of our relationships, locking ourselves in, but despite the restrictions imposed by the pandemic, our spirit has been evident albeit more subdued than ever.

I would also like to thank all the parents for encouraging their children adapted themselves to the new method of the teaching-learning process and extending full cooperation with the school.

I would also like to express my heartfelt gratitude to the biggest strength of the school, Mrs. Malik, the Chairperson, who always stood by us in all the times of trouble, struggle and unhappiness.

In the end, I would like to say that the year 2020 has come to an end, but the challenges we faced are still continuing. And so, the new year urges us to be more optimistic and not to lose the sight of our goals.

We need to believe in our power to reshape the future of our young minds and stay focused on making changes possible.

What we do now, together, will shape what happens tomorrow.

How To Deal With Peer Pressure

Peer pressure can be both negative and positive. If a person is peer pressuring you for a good cause then it is motivation. Motivation is essential for the growth of a person. While peer pressure for a bad cause will always lead you to a disastrous situation. Therefore, it is necessary for a person not to get influenced by the people around them. They should analyze the outcome of the deed in a strict manner. So that they may not commit anything harmful for themselves. Peer pressure is advantageous in many ways. Most importantly it creates a sense of motivation in the person. This further forces the person to cross the barrier and achieve something great. What's more, it boosts the confidence of a person. Because our brain considers people's opinions and makes them a priority. For example: Many salesmen and entrepreneurs use this technique to influence people to buy their products. Whenever we are in a social meet we always get various recommendations. Hence, when a person gets these recommendations the brain already starts liking it. Or it creates a better image of that thing. This forces the person to buy the product or at least consider it. Above all the main advantage of peer pressure can be in youth. If a young person gets influenced by an individual or a group of people. He can achieve greater heights in his career. There are various disadvantages of peer pressure which can harm a person in many ways. If any person is unwilling to perform a task then the peer pressure can be frustrating to him. Moreover, it should not be in an excessive manner. Because it lands a negative impact on the person. A person should be of the mindset of listening to himself first. While considering opinions in favour of him. Peer pressure in youth from a bad company can lead a person to a nasty situation. In addition, it can also hamper a student's career and studies if not averted. Youth these days are much influenced by the glamorous life of celebrities. And since they follow them so much, these people become their peers. Thus, they do such things that they should not. Drugs and smoking are major examples of this. Some kids give in to peer pressure because they want to be liked, to fit in, or because they worry that other kids might make fun of them if they don't go along with the group. Others go along because they are curious to try something new that others are doing. The idea that "everyone's doing it" can influence some kids to leave their better judgment, or their common sense, behind. Students need to be aware of peer pressure by understanding right and wrong things. Parents need to keep check of their child's school life if they are being bullied or pressurized. And also, educate their children about such activities and how they should always stand for their rights.

"HOLIDAYS-A TIME TO RELAX"

Holiday, the name even give the assent of relief and relaxation in students and working individuals. A single Sunday or single national occasion even refill happiness in individuals. A long break from routine gives abundantly of chances to chase for students and working individuals. They get time to remain at home and follow their interests. In working life, 4-5 days leave adequate to boost individuals' vitality to start with new enthusiasm. Everyone loves holidays. We all holidays, the explanation is basic everybody wants to sit back at home spent a day with no pressure. We all get time to complete our pending talks and school-home works. Students adore holidays as they spent a ton on playing and watching Television. Guardians sort out family outings and cookout for their children, which includes travelling and even picnic. Family members love to spend time together on holiday, whether they are working or a non- working member.

MATHEMATICS IS MAGICAL

Suppose a one digit number and a two digit number, you don't have to tell me, just have to suppose in your mind.

Do as I instruct and I will tell u the number that u have supposed.

1. Enter 1- digit number which u suppose.
2. Multiply that number by 5.
3. Add 5 to that answer.
4. Multiply that result by 10.
5. Add 20 to that total.
6. Multiply that result by 2.
7. Subtract 8 from that answer.
8. Add your supposed 2- digit number to that result.
9. Subtract 132 from that answer.

And finally the answer u get is ur supposed digit. Ten's place is 1- digit number and last two digits are 2- digit number.

STUDENT'S CORNER

उन शहीदों को नमन, जो शहीद होकर भी शहीद नहीं कहलाते।
मैं बात कर रही हूँ उन पेड़ों की जो हमारे लिए अपना पूरा जीवन नौछावर कर देते हैं लेकिन हमसे बदले में कुछ नहीं मांगते। जब हमारे साथ कोई दुर्व्यवहार करता है तो हम उस व्यक्ति के विरुद्ध शिकायत करते हैं लेकिन जब पेड़ों के साथ कोई दुर्व्यवहार करता है तो किसी पर कोई प्रभाव नहीं पड़ता। वो अपनी शिकायत किससे करें। मुझे ऐसा लगता है कि आज हम सभी जिस महामारी से जूझ रहे हैं वो पेड़ों के साथ दुर्व्यवहार का ही फल है क्योंकि जब हम सभी अपने घरों में बंद थे, तब वह खुले में आराम कर रहे थे बिना किसी डर के। कुदरत ने मनुष्य को मानो चेतावनी दे दी है कि संभाल जा, जिस तरह तूने उन पेड़ों को काटा अब तेरा समय आ गया है। यदि हम अब वक्त रहते नहीं संभले तो कितनी महामारी हर साल आकर करोड़ों लोगों को अपने साथले जाएंगी। पर्यावरण संरक्षण कितना जरूरी हो गया है, इसे इस बात से समझा जा सकता है कि हमें टॉइलट पेपर मिल सके इसके लिए हर रोज 27,000 पेड़ काट दिए जाते हैं। क्या पेड़ों को जीवन जीने का हक नहीं? आज हमारे देश को 5 स्टार होटल या ऊंची इमारतें नहीं बल्कि पेड़ों से भरे बगीचों की जरूरत है। इतने बुरे कर्म करने के बाद भी जब मनुष्य भगवान से पूछता है कि मेरी क्या गलती थी जो मुझे इस महामारी में डाल दिया? लालच, स्वार्थ, और आलस ने मनुष्य को इतना अंधा बना दिया है कि हमें अपनी गलती महसूस ही नहीं होती। यदि आज पेड़ों पर लिखने के लिए दिया जाएगा तो लिखने तो हजारों आ लेकिन उनका दर्द समझ नहीं पाएंगे। इसलिए मनुष्य को जागना होगा और पेड़ों को बचाना होगा, नए पेड़ लगाने होंगे। यदि ऐसा नहीं हुआ तो वह दिन दूर नहीं जब पृथ्वी पर मनुष्य का अस्तित्व ही नहीं होगा।

Missing My School Days !

My unceasing endeavors and attempts to find new excuses and ways of escaping School, never in my weirdest of dreams had I thought of missing my school. But this Covid pandemic has made us all realise the importance and aptness of a well known quote : "school may be hard and annoying but we all miss it when it ends." No matter how undesired school days were but those were life.

I miss them insanelly now ...

I miss all the fun either little or big we used to have in our school premises.

I miss both the teachings and scoldings of my teachers.

I miss my friends, playing with them, fighting and sharing lunch with them .

I miss my morning assembly and sports time .

And all the more I miss the fun of shouting "chuttiiiiii" at dispersal time .

Now, I pray to God to end this Covid pandemic as soon as possible so that we can get back to our normal school life and be rejuvenated and alive once again ! !

कविता "जिंदगी"

एक दिन खुद से रूबरू होकर
पूछा मैंने जिंदगी से
बता क्या है तू जिंदगी?

जिंदगी ने कहा.....

मैं एक प्रकृति की चेतना हूँ
प्राणियों के प्राण की स्वास हूँ
जो कभी खत्म ना हो संसार में
ऐसी एक आस हूँ

महानगर की भागती दौड़ती जिंदगी में
कुछ फुर्सत के पलों को मोहताज हूँ
शोषित घुटती स्त्री की वेदना में
सिसकती अश्रु की बूंद हूँ

छात्रों के भविष्य निर्माण में
उन्नति का राग हूँ
मानव की बदलती आकांक्षाओं में
खुशी के लिए तरसतीस- सिसकती
बंधी हुई अभिलाषा हूँ मैं जिंदगी

शिखर तक पहुंचने में
मनुष्य के हृदय के कोने में दबी
खुशी की आस हूँ मैं जिंदगी

मैंने कहा , जिंदगी में समझ गई
निर्झरिणी सरिता की तरह बहती
खुद बूंद भर पानी की प्यास है जिंदगी
सहस्रों वर्षों से चली आ रही
मनुष्य जीवन की धारा
का प्रवाह है जिंदगी ।

Tips To Score Good Marks In Class 12 Business Studies Paper

Gone are the days when Business studies involved mere rote learning. Now, the question paper is more of case studies, value based and knowledge based and indirect, rather than direct and simple questions,"

So there are some tips to help you answer the questions in the best way possible:

1. Utilise first 15 minutes (reading time) in the best possible way. Analyse what you know the best and read complete questions carefully.
2. Highlight the main points or key words within each question and read the question correctly.
3. You may write what you know the best. You should always write those points first of which you are sure about.
4. Write your answers in points ONLY - This is the best way to present your answer well and certainly helps you to fetch maximum marks.
5. Present your answers with the help of illustrations like charts, graphs and cartoons. This would definitely give a better impression and help you to present your answers in a better way.
6. Do not extend word limits while answering, because putting main points forward is important.
7. Underlining the key points or key words is one of the most useful devices to bring attention of the examiner. Always underline to highlight main points of your answers.
8. Make sure you attempt all questions. Even if you are unsure of any answer, there might a possibility of getting some marks rather than not attempting it at all
9. Use examples where necessary.
10. Always make sure you attempt distinguish with the help of basis.
11. Do not to forget to write process in sequence- also take help of a FLOWCHART always to explain any process.
12. Try to write sub points as given in NCERT book.
13. For questions related to extract, quote the given extract in the question for clarity.
Eg: question: "Internal sources of recruitment are better than external sources" Explain any five reasons in support of this statement. (5 Marks)
Ans: Internal sources of recruitment are better than external sources in following respects: (Write 5 points with explanation)
14. In question where process or steps are asked , write all points irrespective of 3, 4, 5 or 6 marks question (explanation may vary according to marks) Follow the proper sequence.
15. In questions like..... "Directing is the heart of management process" Do you agree? Give four reasons in support of your answer (5 Marks). Do not forget to start answer with your view- because that is what is being asked.
Ans: Yes, I agree that Directing is the heart of management process. The reasons are..... (Write 5 points with explanation)

Finally I would like to conclude that **ALL THE BEST FOR YOUR BOARD EXAMS**
GIVE YOUR BEST AND KEEP THE REST TO GOD

By- Mr. Nitin Tondon

BOARD'S SPECIAL

ENGLISH

To attempt an examination, one has to be fully prepared and have enough confidence to solve it in the best possible way. Solving the English Exam is not as big a challenge as Maths and sciences. However I would like to advise the students not to underestimate English and form such a schedule of studies that each subject is given enough time and attention including English. English has an edge over other subjects as it's undoubtedly more scoring than any other subjects.

At the end I would expect the children to attempt English paper more seriously and score better percentage.

There's no particular trick for attempting English paper more successfully. However certain important tips can be followed by the children.

The comprehension part can easily help a child to score better. One must go through the unseen passage carefully at least twice. Trying to locate the answers without reading the text thoroughly is a sheer waste of time and energy. Writing section can also help you make a better result. Writing needs lot of practice to bring about grammatical accuracy and fluency. Preparing text part is equally important. One should have clear knowledge about the content of each lesson and poem.

Zulfikar Ali

“Education without values, as useful as it is, seems rather to make man a more clever devil.”

- C.S. Lewis

MATHEMATICS

Most of the students are burning the midnight oil to cover every nook and cranny of their syllabus, so here are some helpful CBSE board exam study tips that may help you to effectively prepare for the CBSE Class 12 Mathematics exam:

1. Understand the contents and weightage of the syllabus.
2. Preparation from NCERT textbook and one reference book is the most important part.
3. Strategize and THEN prepare!
4. Practice sample papers and previous years' papers.
5. Say goodbye to rote learning!
6. Self-evaluation

As a step toward feeling less anxious, start by acknowledging your grey areas and your weaknesses. This can be done better by giving multiple tests and mock exam. Devote more time on correcting yourself instead of demotivating yourself. Maintaining a peaceful frame of mind is more significant than any preparation.

7. Presentation is very important. Neat work is a non-negotiable perk that always benefits a student. Make sure to label the graphs and figures properly. Avoid overwriting and scribbling, if you've made a mistake then strike it off and start from below. Always leave some space between two questions, and start a new section on a fresh page.

8. Time management:

The reading time is the most crucial and must be used judiciously. This involves reading the paper thoroughly, especially the ones involving statements, underlining keywords and then choosing the most scoring questions based on your understanding.

If you're stuck on a question, leave some space and keep moving forward. You can revisit it later with a fresh mind.

Always keep 15-20 minutes buffer time for revising and rectifying your answers at the end.
